 4. Role of Emperor Constantine in spreading Christianity.
 5. Crusades.
 6. Monasteries and their impact

OR

Make a project of Fundamental Rights and ten Duties.

- Question 2)** Make any one 3D Model from your book.

GEOGRAPHY

- Question 1)** Prepare a project on weathering and soil erosion.
OR
- Question 2)** Prepare a project on industries and their types and how they are useful for us.

NOTE:- The project should be tidy and good looking (attractive) without compromising on the related facts.

3D WORKING MODEL

Prepare a working model of Volcanic Eruption by using Waste Water Bottle and Eno for reaction with colourful Water.

PHYSICS

- Question 1)** What is energy? Define different forms of energy with its uses.
- Question 2)** Define simple pendulum with the help of diagram. Explain terms related to simple pendulum.

WORKING MODEL

Make a Model to show conversion of energy from one form to another form. For example:-

- Chemical energy into light energy
- Chemical energy into sound energy
- Chemical energy into heat energy

CHEMISTRY

- Question 1)** Explain the following techniques with diagrammatic representation.
- (i) Sublimation
 - (ii) Evaporation
 - (iii) Separating funnel

- Question 2)** Changes involve energy. Explain it.

MODEL: Make a 3D Model of methods involved in separation of mixture.

BIOLOGY

- Question 1)** Define the term tissue: Give the location, structure, characteristics and functions of different animal tissues.
- Question 2)** Mention the characteristics features of the five kingdom classification as given by R.H. Whittaker.

MODEL – Make a beautiful Model of neuron.

MATHEMATICS

- Question 1)** Write about Rational Numbers, positive rational numbers, negative rational numbers, decimal representation of rational numbers.
- Represent the following rational numbers on the number line.

(a) $-1\frac{1}{4}$ (b) $2\frac{1}{8}$ (c) $\frac{5}{2}$ (d) $\frac{-17}{5}$

- Question 2)** Collect the marks obtained by five students in Quarterly and Annual examinations (English, Math, Physics, Chemistry, Biology) in class VI. Represent the information through double bar graph.

COMPUTER STUDIES

- Question 1)** What is Computer Virus?
- Question 2)** Define Spreadsheet and components of Excel Window.
- Question 3)** Define the types of lists in HTML.

Note : The sequence of Project Assessment should be on the following basis :

- (1) Introduction
- (2) Index
- (3) Acknowledgement
- (4) Question/Answers
- (5) Bibliography

ART & CRAFT

Question 1) Make a 3D Model of Fish Aquarium.

Socially Useful Productive Work

Question 1) Make a file on ‘Clean surroundings’ with suitable pictures in 300 words.

Question 2) Make a decorative ‘Wall hanging’.

Question 3) Community Service:

A packet of Tissue paper napkin.
